

Duolingo Website Redesign – Homepage

Goal: Make the Duolingo homepage easier to understand, easier to navigate, and better at encouraging new users to start learning.

1. **Hero Section:** The most fun way to learn languages, chess, and more!
2. **How Duolingo helps you to learn:** Helps you learn languages, maths and chess with interactive games and track streaks.
3. **Choose your language:** Spanish, Japanese, French etc
4. **Learning features:** choose and answer, fill in the blanks, translations
5. **Gamification and Progress:** Duolingo makes learning more engaging through XP, streaks, levels, rewards, and progress tracking. These game-like features encourage users to practice regularly and continue learning.
6. **Why choose Duolingo:** Good and fun way to learn languages.
7. **Final “Start Learning” CTA:** Ready to start learning?
Start your language-learning journey with Duolingo today.

ReDesigning the Website

Hero Section

Main Heading: The most fun way to learn languages, chess, and more!

Supporting Text: Learn in a fun and engaging way without getting bored.

CTA Button: Start Learning

Layout: Centered text and CTA

Hero Background: A bright, colorful, cartoon-style background with language-related words, letters, speech bubbles, and game-like elements such as stars, XP, hearts, and rewards scattered randomly around the hero section. The center will remain relatively clear for the main heading and CTA.

How Duolingo helps you to Learn

 **Interactive Learning** — Learn through fun, interactive games and activities.

 **Multiple Subjects** — Learn languages, maths, and chess in one place.

🔥 **Stay Motivated** — Track your progress and maintain daily streaks.

Choose Your Language

Heading: Choose a language to start learning

Languages: ES Spanish · FR French · JP Japanese · IN Hindi · GB English

Design: Display each language as a separate clickable card/button with its language name and a small visual/icon.

Purpose: Help users quickly choose a language and begin their learning journey.

Learning Features

Heading: Learn Through Interactive Activities

Features:

1. **Choose & Answer** — Select the correct answer through interactive questions.
2. **Fill in the Blanks** — Complete sentences to practice vocabulary and grammar.
3. **Translations** — Translate words and sentences to build language skills.
4. **Picture-Based Learning** — Use images to understand and remember new words.

Design: Display the four activities as colorful cards with simple illustrations/icons.

Purpose: Show users that learning is interactive rather than just reading lessons.

Gamification & Progress

Heading: Track Your Progress & Stay Motivated

Features: XP Points, Daily Streaks, Levels & Progress, Rewards

Design: Display the four features as colorful cards with simple game-style icons and visual progress indicators.

Purpose: Make progress easy to understand and encourage users to practice regularly.

Why Choose Duolingo?

1. **Interactive Lessons** — Learn through engaging activities instead of passive study.
2. **Beginner-Friendly Learning** — Start from the basics and learn at your own pace.
3. **Fun Games** — Make learning more enjoyable through game-based activities.

Design: Three simple cards with illustrations/icons.

Purpose: Clearly communicate Duolingo's main benefits and encourage visitors to start learning.

Final “Start Learning” CTA

Heading: Ready to Start Learning?

Supporting Text: Start your learning journey today with fun, interactive lessons.

CTA Button: Start Learning

Design: A bold, colorful CTA section with playful learning/game elements in the background.

Purpose: Encourage visitors to begin learning after exploring the website.

Technical SEO Strategy

- **Mobile Optimization:** Ensure the redesigned website works smoothly on mobile devices.
- **Page Speed:** Optimize images and website elements to improve loading speed.
- **HTTPS:** Use a secure HTTPS connection for the deployed website.
- **SEO-Friendly URLs:** Use short, descriptive URLs for important pages.
- **XML Sitemap:** Create and submit an XML sitemap to help search engines discover pages.
- **Robots.txt:** Configure robots.txt to guide search engine crawlers.
- **Internal Linking:** Connect relevant pages to help users and search engines navigate the website.

- **Structured Data:** Use relevant schema markup where appropriate to help search engines understand the content.

Purpose: Improve crawlability, website performance, mobile usability, security, and search-engine visibility.

Off-Page SEO

1. **Influencer Collaborations** — Collaborate with language-learning influencers and educational creators to promote Duolingo and generate awareness and backlinks.
2. **Social Media Promotion** — Promote learning content, challenges, achievements, and campaigns on platforms such as Instagram, YouTube, and Facebook to increase reach and engagement.
3. **Online Communities** — Participate in relevant language-learning forums, groups, and communities by sharing useful content and encouraging discussions about language learning.

Purpose: Increase brand awareness, generate backlinks and referrals, engage potential learners, and drive organic traffic to the website.

Content Marketing Plan

- **Picture-Based Learning Content** — Create visual content using pictures, words, and simple examples to make language learning easier and more memorable.
- **Social Media Posts** — Share language tips, vocabulary, learning facts, challenges, and interactive posts to increase engagement and attract learners.
- **Language Challenges** — Create short challenges such as “Learn 5 Spanish words today” or weekly vocabulary challenges to encourage participation.

- **Reels & Short Videos** — Create entertaining educational reels featuring vocabulary, pronunciation, common phrases, language tips, and Duolingo-style learning activities.

Purpose: Create useful and engaging content that attracts potential learners, increases social media engagement, and drives traffic to the website.

Social Media Marketing Plan

- **Instagram Reels & Short Videos** — Create entertaining language-learning reels featuring vocabulary, pronunciation, common phrases, learning tips, and challenges.
- **Memes & Humorous Content** — Use relatable language-learning situations and memes to increase engagement, shares, and brand awareness.
- **User-Generated Content (UGC)** — Encourage learners to share their progress, streaks, achievements, and language-learning experiences using Duolingo-related hashtags.

Purpose: Increase brand awareness, engagement, social sharing, and website traffic through entertaining and relatable content.

Paid Advertising Campaign

- **Instagram Ads** — Promote short, engaging videos and language-learning content to people interested in learning languages.
- **YouTube Ads** — Use short video advertisements demonstrating Duolingo's interactive and fun learning experience.
- **Google Ads** — Target users searching for terms such as “learn Spanish,” “Spanish course,” and “language learning” to attract high-intent visitors.

Purpose: Reach potential learners, increase website/app traffic, generate new users, and encourage them to start learning.

Advertising Budget

Platform	Budget
Instagram Ads	5000/-
Youtube Ads	3000/-
Google Ads	2000/-
Total	10000/-

Analytics & Reporting

Metric	What it measures
Social Media Engagement	Likes, comments, shares, saves, and other interactions with social media content.
Search Traffic	Visitors coming to the website through search engines.
Ad Clicks	Number of users clicking on paid advertisements.
Website Visitors	Number of users visiting the redesigned website.

Tools: Use Google Analytics to monitor website traffic and user behavior, along with Google Search Console for search performance and SEO data.

Purpose: Track the performance of the website and digital marketing activities and identify areas that need improvement.

Success Measurement & Reporting

- **Weekly:** Check website visitors, search traffic, social media engagement, and ad clicks.
- **Monthly:** Compare the results with the previous month and identify what improved or needs improvement.
- **Final Report:** Summarize the overall performance and give recommendations for future improvements.

Purpose: Regular reporting helps identify successful strategies, measure progress, and make data-driven improvements.
